TO BE EMBARGOED UNTIL AFTER DELIVERY**

JOINTLY ISSUED BY MSE, NEA, NPARKS, PUB AND SDC

EXTENSION OF SMOKING PROHIBITION TO MORE PUBLIC PARKS AND GARDENS, ABC WATERS SITES AND 10 RECREATIONAL BEACHES FROM 1 JULY 2022

Authorities will adopt an advisory approach for first three months of implementation – those caught smoking in newly prohibited places will receive warnings. Enforcement will take effect from 1 October 2022.

Singapore, 7 March 2022 – From 1 July 2022, smoking will be prohibited at the three new types of premises listed below. In consultation with partner agencies, the National Environment Agency (NEA) is prohibiting smoking at these additional areas to further protect the public from the harmful effects of second-hand tobacco smoke.

- All remaining public parks and gardens¹
- Active, Beautiful, Clean Waters (ABC Waters) sites, and
- 10 recreational beaches

2 Smoking is already prohibited in some green spaces such as neighbourhood parks in private and public housing estates, reservoirs and nature reserves. This next round of implementation is a progressive development from existing measures intended to protect non-smokers who visit these places for recreational activities. *(Refer to [Annex I](#) for the list of new places where smoking will be prohibited and existing places where smoking is already prohibited.)*

Advisory approach for first three months

3 To provide members of the public with sufficient time to adjust, in the first three months of the smoking prohibition extension, those caught smoking in the newly prohibited places will receive warnings. Enforcement action will take effect from 1 October 2022². Officers from NEA, the National Parks Board (NParks), the national water agency PUB, and Sentosa Development Corporation (SDC) will be authorised to issue warnings and take enforcement action for smoking offences in

¹ Applies only to all parks and gardens managed by NParks.

² Under the Smoking (Prohibition in Certain Places) Act 1992, an individual who is caught smoking in a prohibited place is liable to a composition sum of \$200 or a fine of up to \$1,000 if convicted in court.

these newly prohibited places³. Posters and banners will also be put up at the new smoke-free locations as additional visual reminders. (*Refer to Annex II for the visual.*)

4 As part of the transition period, SDC began trialling smoke-free regulations at Tanjong, Palawan, and Siloso beaches since June 2020. In line with the extension, NEA has been working with relevant stakeholders to ensure that sufficient 'No Smoking' signages will be installed and placed strategically within the affected places and premises. (*Refer to Annex III for a sample of the 'No Smoking' signage.*) Designated Smoking Areas (DSAs) will be provided in some larger regional parks to allow smokers to adjust to smoke-free parks, as well as within the vicinity of the three beaches in Sentosa.

5 Mr Chia Seng Jiang, Group Director for Parks at NParks, said: "Our parks, gardens and park connectors are widely used by all, young and old, for recreation and exercise purposes. The prohibition of smoking in our green spaces will safeguard its air quality and protect the health and well-being of all visitors. We seek the support and cooperation of all park users to make our parks smoke-free."

6 Mr Koh Piak Huat, Divisional Director, Operations, Sentosa Development Corporation, said: "The trial of smoke-free regulations at Sentosa's beaches illustrates our focus on continually studying ways to enhance and create great experiences, while being committed to our guests' wellbeing. We are pleased to join hands with NEA, NParks and PUB to protect our beach-goers and Singaporeans from second-hand tobacco smoke."

Supporting national effort to promote a smoke-free lifestyle

7 The Smoking (Prohibition in Certain Places) Act 1992 administered by NEA, supports the national effort to promote a smoke-free lifestyle in Singapore and helps to reduce the exposure of the public to second-hand tobacco smoke. Smoking is currently prohibited in more than 49,000 premises, including indoor and outdoor premises such as entertainment outlets, shopping malls, schools and bus-stops, as well as common areas in residential buildings (e.g. void decks, corridors, covered walkways, lift lobbies, stairwells).

8 In 2021, more than 13,000 tickets were issued for smoking in prohibited areas. Close to 40 per cent of the enforcement actions were taken for smoking in prohibited areas in HDB estates at common corridors, staircases, void decks and lift lobbies, as more people worked from home.

9 We encourage smokers to be socially responsible when smoking in public places, and not to light up in smoking prohibited places. The most sustainable solution is for smokers to be considerate to others, and to quit smoking for their own health, and the health of their families and of those around them. Friendly and timely reminders from family, friends and other members of the community can help to reinforce the right social behaviour and norms.

- End -

³ Enforcement officers under PUB will be authorised and empowered under the Smoking (Prohibition in Certain Places) Act 1992 to take enforcement for smoking offences. Under the Parks and Trees Act, enforcement officers from NParks will be able to take enforcement for smoking offences in public parks and gardens under NParks' purview. Under the Sentosa Development Corporation Regulations, enforcement officers from Sentosa Development Corporation will be able to take enforcement for smoking offences in Sentosa beaches.

About the National Environment Agency

The National Environment Agency (NEA) is the leading public organisation responsible for ensuring a clean and sustainable environment for Singapore. Its key roles are to improve and sustain a clean environment, promote sustainability and resource efficiency, maintain high public health standards, provide timely and reliable meteorological information, and encourage a vibrant hawker culture. NEA works closely with its partners and the community to develop and spearhead environmental and public health initiatives and programmes. It is committed to motivating every individual to care for the environment as a way of life, in order to build a liveable and sustainable Singapore for present and future generations.

About National Parks Board (NParks)

The National Parks Board (NParks) is responsible for enhancing and managing the urban ecosystems of our City in Nature. We are the lead agency for greenery, biodiversity conservation, and wildlife and animal health, welfare and management. We are also working closely with the community to enhance the quality of our living environment.

NParks manages some 400 parks, 3,347 hectares of nature reserves, the Singapore Botanic Gardens, Jurong Lake Gardens, Pulau Ubin and the Sisters' Islands Marine Park. Adding to this is the extensive network of Nature Ways, and the over 300 km Park Connector Network that links major parks, nature areas and residential estates island-wide. Every year, we run over 3,500 educational and outreach programmes across our various green spaces.

NParks has developed an urban biodiversity conservation model, which aims to conserve representative ecosystems in land-scarce Singapore. NParks also monitors and coordinates measures to enhance the presence of biodiversity in our urban landscape.

NParks is working closely with partners in the landscape, horticulture, veterinary and animal sectors to increase productivity, and provide training for all levels of the workforce. Enhancing competencies of the industry will support Singapore's vision of being a City in Nature.

About PUB, Singapore's National Water Agency

PUB is a statutory board under the Ministry of Sustainability and the Environment (MSE). It is the national water agency, which manages Singapore's water supply, water catchment, and used water in an integrated way. From April 2020, PUB also took on the responsibility of protecting Singapore's coastline from sea-level rise as the national coastal protection agency.

PUB has ensured a diversified and sustainable supply of water for Singapore with the Four National Taps (local catchment water, imported water, NEWater, desalinated water). PUB leads and coordinates whole-of-government efforts to protect Singapore from the threat of rising seas and the holistic management of inland and coastal flood risks.

PUB calls on everyone to play a part in conserving water, in keeping our waterways clean, and in caring for Singapore's precious water resources. If we all do our little bit, there will be enough water for all our needs – for commerce and industry, for living, for life.

About Sentosa

Sentosa is Asia's leading leisure destination and Singapore's premier island resort getaway, located within 15 minutes from the central business and shopping districts. The island resort is managed by Sentosa Development Corporation, which works with various stakeholders in overseeing property investments, attractions development, and operation of the various leisure offerings and management of the residential precinct on the island.

The 500-hectare island resort is home to an exciting array of themed attractions, award-winning spa retreats, lush rainforests, golden sandy beaches, resort accommodations, world-renowned golf courses, a deep-water yachting marina and luxurious residences – making Sentosa a vibrant island resort for business and leisure. Making Sentosa its home, too, is Singapore's first integrated resort, Resorts World Sentosa, which operates South East Asia's first Universal Studios theme park.

Situated on the eastern end of Sentosa Island is Sentosa Cove, an exclusive oceanfront and residential enclave bustling with some 2,000 homes, romantic quayside restaurants, retail and specialty shops. The Island is also proud to be home to Sentosa Golf Club and its two acclaimed golf courses, The Serapong and The New Tanjong. Sentosa Golf Club hosts the SMBC Singapore Open and the HSBC Women's World Championship, featuring some of the world's best golf professionals.

Welcoming a growing number of local and international guests every year, Sentosa is an integral part of Singapore's goal to be a global destination to work, live and play. For more information, please visit: www.sentosa.com.sg.
